NUTRITION AND HEALTH ASSESSMENT QUESTIONNAIRE

© 2014, Angela Bailey BA, Dip RSA, Dip ION, mBANT, mCNHC Tel: 07934 593659

PRIVATE AND CONFIDENTIAL

Please don't be put off by the length of this questionnaire.
Take the time to answer all questions as fully and accurately as possible, as this information will be used to build an individual nutritional programme, specifically for you.

First name:	**Surname:**
Address:	**Occupation:**
Main contact number:	**E-mail:**
Date of birth: **Age:**	**Gender:**
Height:	**Weight:**
Blood pressure (don't worry if you don't know it):	**Pulse rate** (beats per minute)**:**

How did you hear about my practice?

What is your main aim for this consultation?

Health Concerns **(please list in order of priority and continue on a separate page if necessary)**	**How long have you had this?**
1.	
2.	
3.	
4.	
5.	

Please leave blank for therapist notes.

GP's name, address and telephone number	**Are any other therapists/clinics involved in your care? Please list.**

Past Medical History

Details of any past illnesses
Details of any past operations
Recent test results (within the last 12 months)

List any medicines you are taking (continue on a separate sheet if necessary)	**Dose/ How long have you been taking?**
1.	
2.	
3.	
4.	
5.	
List any supplements, giving brand names where possible (it would be useful if you could bring these with you)	
1.	
2.	
3.	
4.	
5.	

How many children do you have?	Number	Ages
Sons		
Daughters		

HEALTH SCREEN – FAMILY HISTORY
PLEASE INDICATE IF ANY OF THE FOLLOWING CONDITIONS RUN IN YOUR FAMILY – (M=MALE; F=FEMALE)

CONDITION	**Grandparents**				**Parents**		**Siblings**		**Children**

Have you recently changed your diet?	Do you eat on the move or when stressed?

I hereby sign that this is a true reflection of my present health. Signature: Date:

BANT TERMS OF ENGAGEMENT – Issue 2.4 March 2014

This document is confidential and a signed copy must be retained by both the Client and the Nutritional Therapist (NT) -

BETWEEN THE BANT NUTRITIONAL THERAPIST (NT) AND HIS/HER CLIENT

The Nutritional Therapy Descriptor
Nutritional Therapy is the application of nutrition science in the promotion of health, peak performance and individual care. Nutritional therapy practitioners use a wide range of tools to assess and identify potential nutritional imbalances and understand how these may contribute to an individual's symptoms and health concerns. This approach allows them to work with individuals to address nutritional balance and help support the body towards maintaining health. Nutritional therapy is recognised as a complementary medicine and is relevant for individuals with chronic conditions, as well as those looking for support to enhance their health and wellbeing.

Practitioners consider each individual to be unique and recommend personalised nutrition and lifestyle programmes rather than a 'one size fits all' approach. Practitioners never recommend nutritional therapy as a replacement for medical advice and always refer any client with 'red flag' signs or symptoms to their medical professional. They will also frequently work alongside a medical professional and will communicate with other healthcare professionals involved in the client's care to explain any nutritional therapy programme that has been provided.

The Nutritional Therapist (NT) requests that the Client notes the following:

• The degree of benefit obtainable from Nutritional Therapy may vary between clients with similar health problems and following a similar Nutritional Therapy programme.

• Nutritional advice will be tailored to support health conditions and/or health concerns identified and agreed between both parties.

• Nutritional therapists are not permitted to diagnose, or claim to treat, medical conditions.

• Nutritional advice is not a substitute for professional medical advice and/or treatment.

• Your Nutritional Therapist may recommend food supplements and/or functional testing as part of your Nutritional Therapy programme and may receive a commission on these products or services.

• Standards of professional practice in Nutritional Therapy are governed by the CNHC Code of Conduct.

• This document only covers the practice of Nutritional Therapy within this consultation, and your practitioner will make it clear if he or she intends to step outside this boundary.

The Client understands and agrees to the following:

• I am responsible for contacting my GP about any health concerns.

• I give permission for you to contact my GP regarding any agreed aspects of my case: YES NO

• If I am receiving treatment from my GP, or any other medical provider, I should tell him/her about any nutritional strategy provided by my nutritional therapist. This is necessary because of any possible reaction between medication and the nutritional programme.

• It is important that I tell my nutritional therapist about any medical diagnosis, medication, herbal medicine, or food supplements, I am taking as this may affect the nutritional programme.

• If I am unclear about the agreed nutritional therapy programme/food supplement doses/time period, I should contact my nutritional therapist promptly for clarification.

• I must contact my nutritional therapist should I wish to continue any specified supplement programme for longer than the original agreed period, to avoid any potential adverse reactions.

• Recording consultations using any form of electronic media is not allowed without the written permission of both me and my Nutritional Therapist.

We understand the above and agree that our professional relationship will be based on the content of this document. We declare that all the information we share during this professional relationship is confidential and to the best of our knowledge, true and correct.
